

SUMMARY

Enforcement action taken against schools for failing to manage asbestos

HSE has published updated details of enforcement action they have taken against an Academy, two church schools, an independent school, a maintained school and a university over failures to manage asbestos. An immediate Prohibition Notice was placed on a primary school in Cardiff for a disturbance to asbestos, three Improvement notices were because of breaches in the regulation for providing training, another for failing to provide information on the location and condition of asbestos and the final one for a general failure to manage their asbestos.

This enforcement action shows a continued failure of schools to effectively and safely manage their asbestos.
